Scooby-Doo (creative franchise) Communists

How in the world can some people say that Scooby Doo was a communist?

Answer Follow · 2 Request

1 Answer

Alexander Finnegan, J.D. Law, Marxist Leninist
Answered Apr 4, 2019

Scooby Doo has caused many Gen X'ers to become commies.

1. They don't embrace the Puritan work ethic. In fact they never seem to do much work at all.
2. They are hippies.

Shaggy clearly rejects bourgeois notions of appearance and identifies with the proletariat.

They are smoking weed and then eating Scooby Snacks. In the later versions they ate Munchos and Doritoes.

replica paintings.

In just one day, everything he had built was gone, all because the gang felt it was somehow the duty of Mr. Wickles to inform his clients that the paintings he was selling may have come from questionable sources. And if that wasn't enough, the group has him arrested for live-action role playing as a black knight inside of the museum. Talk about political correctness run amok!

And who can forget Han from *Mine Your Own Business* (a title which the kids could have taken to heart). A lowly assisstent at dying business, Han try's to give himself a better life. He worked hard to buy land he discovered oil on, but when the time came for it all to pay off, the tree-hugging, anti-gentrification goon squad swooped in and had him shut down. Move over Barack Obama, these kids are killing more jobs than your healthcare law."

Scooby-Doo Is Anti-Capitalist Propaganda.

Most of the episodes do involve the gang foiling the capitalist exploitation of the proletariat.

From: Scooby Doo as a Marxist Plot

1. "Not weighed down by the burdens of private ownership, a coed group of teens live in a shared van and drive around the country bringing capitalists to justice. This is a classic example of Hegel's dialectic in which the young idealists represent the antithesis of capitalist greed and excess. Truly these are revolutionaries who represent the dawning of a new era in history.
2. The evils of private ownership and greed are revealed when the real villain is caught: The OWNER of theCandy Shop, The OWNER of the Amusement Park, etc. His acts of terror are always in pursuit of personal profit.
3. The supernatural is always explained with science: A ghost is a projection. A phantom is man in a costume. These entities, along with other entities that believe in the supernatural (i.e. organized religion) are simply means of scaring the ignorant masses into submission.
4. The Mystery Machine is always referred to as "OUR van". No private ownership for these visionaries.
5. Shaggy and Scooby, easily duped and suckered by the slightest promise of a snack, represent the masses that cling to religion while waiting for their paradise in the next world. Under this paradigm, they are easily manipulated and always play the role of the fool."
